

I'm a 77 year old retired physician.

For 1 year i had Severe Sciatic Pain radiating from my right lower back down my Right lower leg. I couldn't walk more than 50 feet before the pain became severe.

Dr. Georgiy Brusovanik performed surgery at Doctors Hospital in Coral Gables,

Replacing all the disk in my lumbar spine because the degeneration was severe.

Procedure was done in two stages.

The surgery was very successful.

My recovery each time was shorter than I expected. I am now able to walk my dogs up to 12 city blocks per day.

I am very pleased with the care I received and feel that Dr. Brusovanik expertise and kind manner helped me to achieve the success i had.
